Reasons for Allowance

1. Claims 1, 3-14,16-18, 20-22,24,25 are allowed.

It is noted that the closest prior art of record, Lopez-Estrada et al. (US Patent Application Publication2003/0083867), teaches a method for efficient rate control of audio encoding, but does not teach the technique of setting an initial common scale factor to a prior common scale factor if a maximum spectral coefficient with in a frame of audio data is not equal to zero. Thus, independent claims 1, 14, 18, 22, and 25 are allowable over the prior art of record because the cited prior art alone or in combination, does not fairly suggest or disclose the claimed combination of features.

Comments

2. It is noted that during the interview of 5/03/2007 the Applicant was informed that the previous 101 rejections no longer applied. At this time these were the only remaining rejections.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to V. Paul Harper whose telephone number is (571) 272-7605. The examiner can normally be reached on M-F.
